HANA-SL cartridge is now even stepped forward to HANA-ML cartridge for next generation with more perspective sound world.

Body is made by Delrin rigid plastic material, with much more improved mechanical characteristic and stability, having suppressed unnecessary resonance.

Stylus is Micro Line tip, fitting more precisely to vinyl groove to capture extreme tiny vibration signal for extensive wide frequency reproduction.

Cryogenic processed (Treated for stabilized uniform particle direction) front, center and rear components of magnetic electro-motive circuit, will get you pure and precise sound response.

Excellent copper wire is selected for moving coil, getting clear sound, thanks to its low distortion rate.
HANA-SL MONO

Keeping HANA-SL wonderful sound, HANA-MONO cartridge is now available with twin coils, picking up MONO vinyl signal by Shibata stylus, creating new world sound from traditional days.
